APIC offers FREE services and provides academic skills support to all students enrolled. APIC Workshops assist students to develop their academic skills.

APIC designed workshops are specifically for Undergraduate and Postgraduate student's coursework.

Workshops are 2 hours in duration. Semester 1-2017 workshop days are Mondays and Tuesdays ONLY (Summer Holiday Timetable)

- Registration is essential online via the APIC Website
- Workshops are FREE
- Workshops on the above table will be available from 06th March to 16th June 2017
- Some workshops will provide an additional certificate on completion (Conditions Apply)

For more information on the APIC workshops available, see one of our APIC Staff.

Happy Studies!

Leadership Skills

Learn how to develop your skills to successfully manage a group of people and ensure how you communicate effectively and efficiently and delegate and deliver to become an exceptional leader. Hence it is important that effective leadership starts with a thorough understanding and congruence of the value systems of all stakeholders involved.

Academic Reading and Writing

This workshop provides a concise and practical overview of the essentials of academic reading strategies such as scanning to find the book or chapter, skimming to get the gist and careful reading of important passages. As reading is strongly connected to writing, participants may get some hands on practice on understanding the meaning, relationships in the text, important points, reading efficiently and note taking etc.

Learn how to use punctuation and referencing, and develop supporting ideas in academic writing. Designed to help students write academic essays, reports, from the beginning through to the end of their course

Academic Research

This workshop explores academic research as a multi-step process to assist the participants not just to create new ideas, perspective and argument, but also to return to previous stages as they refine their research question, topic or approach. As a result, participants will get an opportunity initially to choose and focus a research topic and then find, evaluate and cite the background information about their research question, topic or approach. It is expected that this workshop will guide the participants to consider the larger, and interrelated elements of critical thinking involved in academic research to be more productive and alleviate anxiety.

Team Dynamics

This workshop is recommended for students who want to understand what team dynamics are all about and have a significant impact on working in teams. The focus of this workshop is to allow the participants to discover what motivates other team members, how to build team cohesion and improve higher levels of performance, how to position team members for optimum performance, and how to deal with conflicts in an effective and efficient manner. It is expected that this seminar will assist the participants to understand individual's personality and management style, communication and language skills, lead their teams with passion and influence and make informed collective decisions.

Individual Tutorials

An individual consultation lets you seek help with any specific study-related problem or issue. Staff may allocate you to work with a Peer Writing Assistant to discuss and explore useful strategies to apply to your studies.
