Co-Requisites	None

Unit description

PRJ5108 Project Delivery and Contract Management aims to advance students' knowledge and competencies in designing and implementing optimal systems for contracting, administration and procurement management of projects and programs with a view to responding to both strategic and implementation needs of sponsor/clients and other stakeholders. The unit examines a range of project delivery models and contract types, and students are required to apply these to a case.

Unit Learning Outcomes

On successful completion of this unit, students will be able to:

- ULO1** Describe advanced delivery systems, contract types and procurement methods.
- ULO2** Explain the legal systems and organisational factors for project contracts, procurement, and delivery systems.
- ULO3** Evaluate project situations and select appropriate contract type, delivery, and procurement methods.
- ULO4** Analyse implementation risks via contracts and develop measures to mitigate these risks.
- ULO5** Engage in contract negotiation, claims and dispute resolution.
