Unit Description

This unit aims to provide an extensive theoretical and practical foundation for understanding real world management practices, focusing on the relationship to organisations and business processes.

Unit Learning Outcomes (ULOs)

On successful completion of this unit, students will be able to:

- [ULO1] Describe the main management practices currently used in the Australasian context
- [ULO2] Interpret the values, social and ethical responsibilities of management theories in a global context.
- [ULO3] Critically analyse the nature of effective decision making, goal setting and planning strategies employed by managers.
- [ULO4] Evaluate various management principles and determine the benefits derived from their application in organisations.
- [ULO5] Assess control systems and processes to achieve effective change in organisations.
- [ULO6] Understand individual and group behaviour in the context of organisations and their environment.
