Overview:

This unit introduces and explores the major concepts and perspectives in leadership and governance. In order to succeed in today's professional world, it is as important to be aware and understand the dynamics that influence organisational life as it is to possess technical and task-oriented skills. People at different levels in organisations are expected to lead, inspire and energize their colleagues, departments and whole organisations. As the environment in which organisations operate rapidly changes, new forms of leadership and governance emerge. These trends and their implications will be analysed and discussed in this unit of study.
