

## **SBM3303 Taxation**

### **Unit Description**

This unit is designed to teach students about the Australian Taxation System, with particular focus on understanding Australian Income Tax Law. Students will learn the necessary skills to locate, apply and interpret relevant taxation law (statute, case law and rulings) to solve basic tax problems covering income tax, GST, FBT, CGT, capital allowances and tax administration. This knowledge will be applied to all tax entities (individuals, partnerships, companies and trusts). This unit will also incorporate theoretical concepts that underpin taxation law in Australia.

### **Unit Learning Outcomes (ULOs)**

On successful completion of this unit, students will be able to:

- ULO-1: Describe and discuss the fundamental principles and operations of the Australian taxation system and the Income Tax Assessment Acts.
- ULO-2: Apply the concepts of assessable income and allowable deductions to calculate taxable income and tax payable.
- ULO-3: Research and analyse examples of taxations cases to illustrate income tax rulings.
- ULO-4: Analyse, discuss and apply problem solving skills to resolve problems and issues relating to taxation law.
